SUMMARY

Psychology graduate (CGPA 8.47/10) with a Major in Artificial Intelligence, transitioning into cognitive neuroscience research. Experienced in experimental research design, psychometric data analysis, and statistical modelling (SPSS). Demonstrated capacity for academic manuscript preparation and cross-disciplinary inquiry spanning cognition, AI, and human behaviour. Seeking Research Assistant or lab internship roles ahead of MSc studies at the University of Nottingham.

EDUCATION

University of Nottingham
Sep 2026 – Sep 2027 (Expected) · Nottingham, UK
MSc Cognitive Neuroscience

Manav Rachna International Institute of Research and Studies
Jul 2023 – Jul 2026 · Faridabad, India
B.A. (Hons) Applied Psychology | CGPA: 8.47/10
• Dean's List Awardee — recognised for academic excellence across semesters
• MR Student Ambassador — bridged student concerns and institutional leadership through structured feedback channels and campus-wide engagement initiatives

IIT Ropar – Masai
Jan 2025 – Jan 2026 · Ropar, India
Major in Artificial Intelligence Program (Formerly Minor in AI Program) | CGPA: 6.21/10

RESEARCH EXPERIENCE

Cognitive Load & AI-Based Learning Tools — Final Year Dissertation
2026
• Designed a controlled survey study quantifying perceived cognitive load and adaptive responses to AI-mediated learning tools across 500+ university students, applying psychometric frameworks informed by established cognitive load constructs
• Executed multivariate statistical analysis and data visualisation in SPSS, including regression modelling and descriptive profiling of cognitive load metrics across participant subgroups
• Co-authored full manuscript (literature review, methodology, results, discussion); manuscript submitted for peer review

Emotional Intelligence Survey — Research Study
2024
• Conducted psychometric data collection and analysis on emotional intelligence constructs across N = 200 participants (aged 20–25), employing validated structured survey instruments
• Applied quantitative modelling in SPSS to identify statistically significant patterns in emotional regulation and leadership correlates; report under review for publication

INTERNSHIPS

HITLAB — DELPHI Innovation Program
Jul 2025 – Sep 2025
• Conducted MedTech innovation research under the Delphi Program, engaging with digital health workflow analysis, evidence synthesis, and data management protocols in a clinical-digital interface context
• Supported synthesis of research across 3+ innovation tracks; produced structured reports on digital health intervention feasibility worldwide

Suknit GLC — Child Development Research Assistant
Jun 2025
• Conducted structured behavioural observation and developmental milestone tracking for children aged 2–7 years, applying coding frameworks to document and categorise observable behavioural patterns across age cohorts
• Tracked developmental progress across 15+ children; delivered milestone tracking reports to lead researcher

PROJECTS

AI Quiz Generator Based on Books — AI Minor Capstone
2026
• Engineered an NLP-driven quiz generation pipeline extracting key concepts and structured question-answer pairs from text corpora via tokenisation and semantic parsing
• Designed multi-type question architecture with automated difficulty calibration; led full system design and NLP pipeline development as joint capstone deliverable
GitHub: https://github.com/khushbooai/AI_Quiz_generator.git

SKILLS

Statistical & Research Tools: SPSS, Excel, Google Forms, Psychometric Survey Design, Quantitative & Qualitative Research Design, Academic Manuscript Preparation
Computational & Technical: Python, NLP Fundamentals, AI/ML Fundamentals, Basic Scripting, Notion, Google Suite, Microsoft Suite, Canva
Neuroscience & Cognitive Science: Cognitive Load Theory, Behavioural Observation, Experimental Design
Research Methodologies: Survey Optimisation, Psychometric Data Interpretation, Participant Recruitment, Data Management

AWARDS & CERTIFICATIONS

• 3rd Place — Bootcamp on Research & Abstract Writing, CLSR School of Law, MRU; winning article published in MRU Law Department book
• Foundation & Advanced Gender Affirmative Care — ATHI (iECHO, accredited by Delhi Medical Council), Apr 2025
